DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 4, 5 and 8, drawn to power generating system with conventional generator.
 - II. Claims 2, 6 and 9-11, drawn to power generating system with "fluttering bands".
 - III. Claims 3, 7, 12 and 13, drawn to power generating system with "ionization device".
 - IV. Claims 14 and 15, drawn to drawn to power generating system with "air flow channel".
2. The inventions are distinct, each from the other because of the following reasons: Inventions of Group I through VI are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together, or they have different modes of operation, or they have different functions, or they have different effects. (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions cannot be used together, they have different modes of operation, different functions and effects.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. During a telephone conversation with Mr. G. Edwards on June 6, 2003, a provisional election was made to prosecute the invention of Group II, claims 2, 6 and 9-11. Claims 1, 3, 4, 5, 7, 8 and 12-15 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

5. This application is in condition for allowance except for the presence of claims 1, 3, 4, 5, 7, 8 and 12-15 to inventions non-elected without traverse. Accordingly, claims 1, 3, 4, 5, 7, 8 and 13-15 have been cancelled.

Examiner's Amendment

6. An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. §1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the Issue Fee.

7. The application has been amended as follows:

Cancel claims 1, 3, 4, 5, 7, 8 and 12-15.

Reasons for Allowance

8. Claims 2, 6 and 9-11 are allowed.

9. Examiner's Statement of Reasons for Allowance:

Applicant(s) invention relates to a power generation system, and more specifically, to a power generation by "fluttering bands".

The system is developed to provide power for a ROSAR system of the helicopter where a transponder card receives power from a plurality of fluttering bands attached to the helicopter rotor blades.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the concept of utilizing fluttering bands for power generation in a configuration, as disclosed and claimed, and which examiner's search failed to find.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant(s) disclosure.
